

OUT SYSTEM™

outdoor unconventional texture

OUT SYSTEM™ is a valid alternative to traditional coverings, which allows experimenting new decoration solutions for walls in the outdoors:

- it is specific for applications on outdoor walls and facades
- it has innovative technical properties and allows highly innovative visual effects
- rapid installation compared to the application of normal outdoor coat painting of facades
- it can be applied on new wall surfaces in cement, thermal coat or with paint

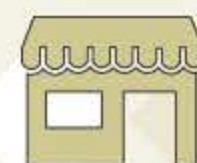

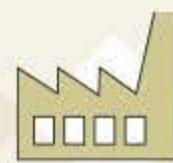

◇ The outdoor wall covering **OUT SYSTEM™** has undergone lab testing and is **guaranteed for 10 years** from installation.
